Unruli

ON THE EDGE

Box slides out to end of tailgate for easy reach and retrieval, then back in for stowing.

SHIFT HAPPENS

But not here... box keeps items from sliding to hard-to-reach places. LED light helps to see in the dark.

YOU'VE GOT IT ALL

Box easily folds to inside of each wheel well for full bed usage. Within minutes bed can haul large items.

STOW AND GO

Release latch, push box in, tailgate up, and go. It's that easy...

GOT IT COVERED

Sliding box rails double as tonneau cover side rails. Protect it all under a roll-up tonneau cover.

RUGGED RESULTS

Store up to 250 lbs in corrosion resistant box. Lockable box is protected under heavy duty vinyl tonneau cover.

EASY PEASY

Install the entire system in under 30 minutes with 1 person and 1 wrench. No drilling, no harm to truck.

MADE IN THE USA
